Team Huddle Agenda – *29.06.2023*

Introductions, with an ice-breaker !!!

- Say your full name (for fun!), as well as your year of study and program (with specialization etc.)
- The ice-breaker is: What is your favourite programming language, and why ! (pls not Java-script)

Go over positions for the year !!

- Mercy – Chief Liaison for the Ministry of Internal Affairs
  Chief Internal Liaison

- Hugh – Chief of Communications for the Ministry of Internal Affairs
  Chief of Internal Communication

Cover chief responsibilities for the summer

- Fall Volunteer hiring – we gotta do it !
- Ensure all activities in the constitution are planned for – theres alot we haven't done in the past few years... (but not for a lack of trying)
- Planning and calendars – we gotta make sure the rest of these people know what they gotta do! (and why)
- Figure out the exact format of General Assemblies – they need to be more dynamic! Mainly just a brainstorming thing though.

Go over memo for desired changes within The Association

- Alter the names of positions within the association to make them more meaningful, and and important sounding – ie. "Minister" instead of "Director" etc. And along with this, make some fancy letterhead as well! (like this one). This is aims to accomplish the goals of:

  - Make COMPSA's position within the wider student government more obvious by our naming scheme (ie. We'd have a premier, not a Prime Minister)

  - Make the positions in COMPSA more desireable and respectable (ie. How good does "Minister" or "Chief" look on linked-in – *really good*)

- Make email an actually viable way to communicate to and from The Association. Right now our email is sidelined – which really restricts our ability to communicate with people outside of Discord.
